

Lists of Member Companies and Brands (Where applicable)

The following lists provide the names of the companies and their relevant brands (where available) – or the website locations where such information can be accessed. These lists are especially helpful tools for those investigating which, if any, of the six complaints mechanisms may apply in the case of a workplace violation.

List of Member Companies and Brands

Clean Clothes Campaign (CCC)

No list provided because CCC does not have member companies/brands. CCC's mechanisms apply to all garment-producing companies / brands.

Corporate Members

**As of June 2006 (Brands owned by each company not provided by SAI)*

SAI also publicly lists the names and locations of all SA8000 certified facilities. Access <http://www.sai-intl.org/index.cfm?fuseaction=Page.viewPage&pageId=745&parentID=617&grandparentID=4&nodeID=1> for the complete list of the nearly 1,000 certified factories worldwide.

Signatory Members

- Work with SAI to develop and execute a plan for implementation of SA8000 and/or certification of designated company and/or supplier facilities within an agreed-upon scope (and timeframe?). SAI support services include training, technical assistance, best practice studies and identification of shared suppliers.
- Communicate SA8000 implementation goals and progress to stakeholders via SAI-verified annual reports or the SAI multi-stakeholder evaluation and recommendation process. Signatories may use SAI and SA8000 logos in their communications to demonstrate credibility.

Estimated number of facilities: 15

Started: 11/99

Annual revenue: \$11 Billion

Workers Rights Consortium (WRC)

Although the WRC Does not have company membership, its work focuses on the companies that produce goods bearing college and university names and logos.

All factories producing such licensed products are included in an online database, which is updated regularly. Access the database at <http://www.workersrights.org/search/index.asp?reset=1>. Information can be accessed by country, licensee or university. Search results include factory names and locations, the products produced, and other data.
